

# EUROCOMPONENTS

## *Streetfighter front fairing mounting instructions*

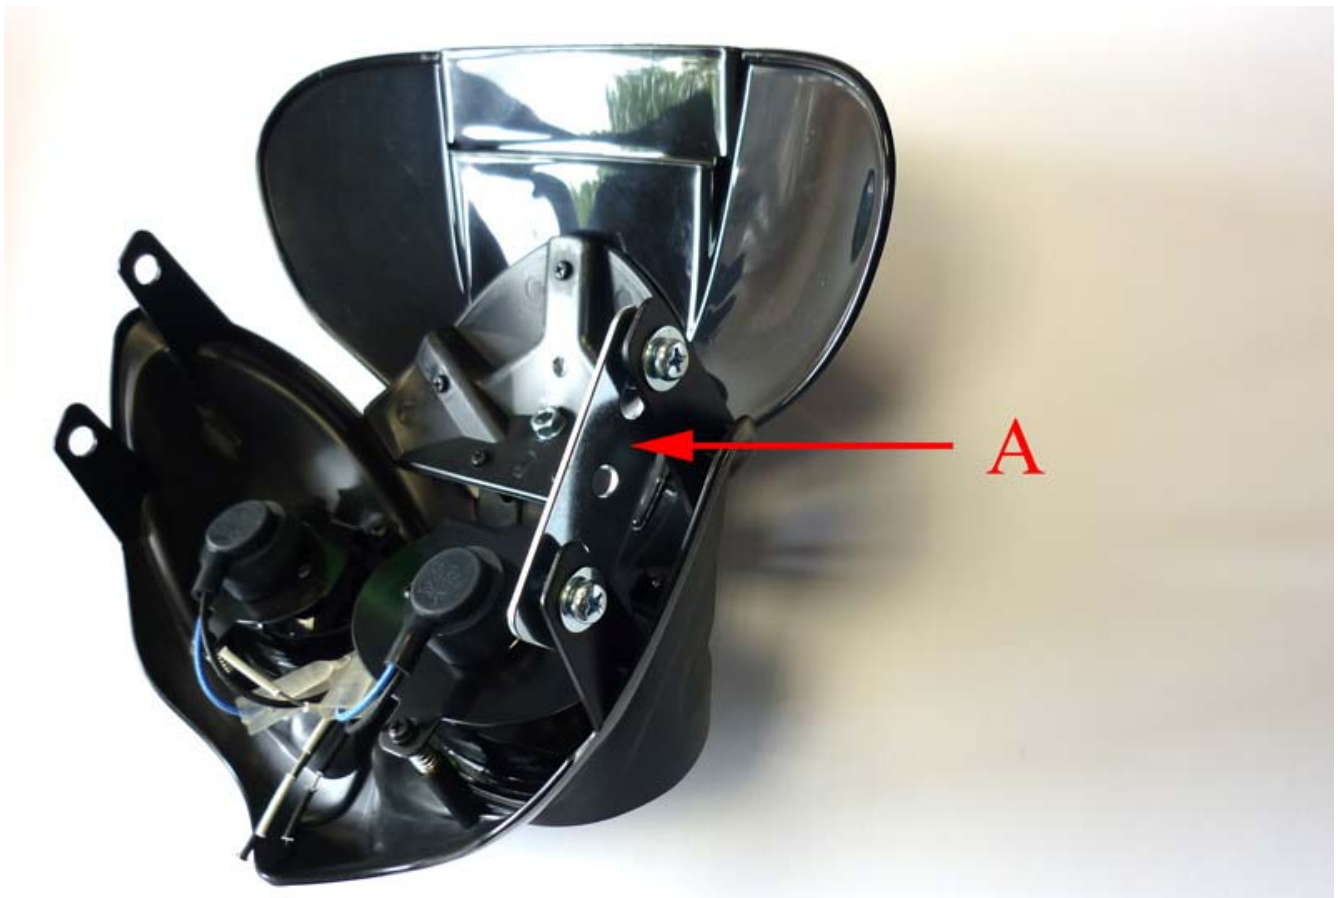

Assembly should be performed by an authorized motorcycle technician

### Kit includes:

- 6 screws
- 12 washers
- 6 nuts
- 2 brackets "A"
- 2 brackets "B"
- 1 fairing
- 2 headlights

### Step 1

First mount brackets "A" to the housing

**Step 2**

Fix brackets "B" on your front fork tubes.

These brackets are adjustable and fit fork tubes with diameters ranging from a minimum of 35mm to a maximum of 50mm

**Step 3**

Fix brackets "B" on brackets "A" and adjust the position of the fairing before tightening all bolts.
